Red River Jamboree

Gimmi a lil' Blood,
will, ya, Huh?

I.S.O. NEWS

United Nations Day concerns itself with inducing individuals to the idea of world-wide brotherhood. Before we can have this, there must be sympathetic understanding with other nations. A prerequisite to this is knowing something about each country. It is indeed unfortunate that only a few "Mac-nicks" can boast of this.

The International Students Organization commemorated United Nations Day by showing two films: "War on Want" and "The Road to Independence." This was followed by a panel of three Nigerian students, Mr. E. Inwang, of Macdonald, Mr. E. Omenukor and Mr. Y. Ditty-Assez, both of McGill. All were targets for lively questioning from the audience.

These students possessed a wealth of knowledge regarding their own country, an this proved to stimulate a broader understanding of their countrymen.

May we congratulate the I.S.O. and the panel for a very interesting evening.

Catherine DOCHERTY

Your Future... Our Purpose

Royal '61 is actively underway! The theme for this year's big day — Your Future... Our Purpose — was chosen by the Royal executive and Royal Board of Directors last Thursday at the first joint meeting of the two groups this year.

David "Moose" Guttman, Agr. III, who submitted the winning effort will be rewarded with a pair of tickets to Green and Gold '61, the Macdonald stage spectacular that runs simultaneously with the Royal. "Your Future... Our Purpose" embraces the 14th. Macdonald College Royal, a traditional student display and show which started shortly after the second war. Through the years that have followed, the College Royal has grown in size and prominence and in recent years, has been honoured by many distinguished individuals and a host of visitors to the Mac campus.

Again this year a dedicated organizational body is already planning for one fine day in late February, when the campus becomes a bee-hive of activity, starting with the crowning of the Royal Queen, the inter-option booth competition, the Livestock Show, Gymnastic and Rhythms Displays, Food Demonstrations, a Square Dance Competition, Fashion Show, Puppet Shows and numerous other displays.

Case for Class III Diploma

An opinion is held by some of the Class Three students that we of this class, are viewed by the other Macdonald students with condescension. The fact that we are leaving Macdonald with a Class III Certificate does not mean that we are all going to become third rate teachers.

The greater majority of Class III students agree wholeheartedly with the oft-expressed opinion that a Bachelor of Education degree should be required of all teachers. We, who really want to dedicate our lives to teaching, believe that teaching should become as much a profession in all areas as any other one. We realize that a degree is a necessity in all other professions, and that teaching future citizens is at least as important as medicine or engineering. We fully realize all these things, but we also know the great need for teachers. This need is an ever increasing one, and must be met. If this diploma were abolished, the standards of the teaching profession might be raised, but its membership would also decline with frightening rapidity. The teacher shortage would be increased, not only for the four years following such an act, but always. The reason for this is obvious. There are a great many of us for whom this one year course is the only possible way in which we may become teachers. Circumstances, financial and otherwise, would prevent many of us from ever coming to teach-

er's college. To cite the most obvious example; how many married people could attend university as day students for a period of four years?

We know that there are some in our class who are simply taking the easiest route to a decent job. We know there are some who are becoming Class III teachers because they don't want to go to school for four years or work in an office. We know there are some who will become Class III teachers and remain Class III teachers throughout their careers. We know that these types exist. We admit that the possibility is greater that there will be more of these people in the one year course than in the two or four year courses. We know this and we aren't proud of these people any more than anyone else in the teaching profession would be.

However, the majority of us want to become good teachers. We intend to work for night school credits while we are teaching. We don't intend to vegetate once we enter the classroom. We want that degree just as much as you do. Perhaps we want it more, because we know that in order to get it, we will have to work twice as hard as you will during the day.

Please, don't condemn this certificate or our class on the basis of a few "do-nothings" in the teaching profession.

Barbara SCRUTON

Class Play Teachers I

On Wednesday night, October 26th a well filled auditorium saw the satirical one act play, "Othello." The script was written by Tony Brosecomb a member of Teachers I.

The background music was one of the strong points of the play. Other outstanding features were costume and make up by Pat Donaldson and Betsy Lewis and lighting by Harry Brown and Bob Cox.

The bits of wit and humour were appreciated, especially those which poked good fun at college antics.

What was lacking was the "meat" content. There were too many lapses at which time nothing happened. At other times the players wandered back and forth across the stage with no meaning to their actions.

"Othello" was a success, not as a play but as a glorified skit.

Artist

Demonstrates

John Marok, whose paintings and monotypes have been exhibited in the seminar room this month, will demonstrate the making of monotypes, on Monday, October 31st, at 6:45 p.m., in room 162.

A monotype is an extension of a simple drawing into a work of added tone values and depth. Some materials will be available for those who wish to try their hand at making a monotype. This demonstration is under the auspices of the Sketch Club.

Grand Gathering of "Clan" Macdonald

The Sophomores will be hosts to the "Clan" on November 18th.

Dr Dion Guest Speaker

Dr Dion will be guest speaker at the meeting of the Combined University Campaign for Nuclear Disarmament. The meeting is scheduled for November 3rd.

Swing your partners to Brittain Hall Gym for the Blood donor clinic on Thursday, November 3rd, 1960.

The Blood Donor Clinic will be held from:

10:00 a.m. — 1:30 p.m.
2:30 p.m. — 6:00 p.m.

The life you save may be your own. Be there, and give. All classes are in competition with each other. Every giver will get a point for his class including those who have had jaundice, malaria, are now underage, or was a recent donor. Help support your college.

Anita DUBOW

EXPERTS WANTED

If you were an expert swimmer would you dive into the sea to save the life of a little child?

If you were an expert mountaineer would you clamber down the side of a cliff to save the life of an injured boy?

If you were an expert firefighter would dash into a burning building to save the life of a new born babe? We are sure you would, if you were an expert in any one of these fields. Not many of us are expert swimmers, mountaineers or firefighters; but all of us are experts at making blood. Why, we can make blood without even thinking about it.

Shucks, a fellow can make it in his sleep! Any of us can give a pint of blood at noon on Thursday and replace it before noon Friday; just because we are such

(Continued on Page 2)

EDITORIALS COMMENTS

Those of us who watched the recent television debates between Nixon and Kennedy have witnessed a milestone in the history of Presidential campaigning. For the first time the public has been able to see, and hear, two candidates spontaneously expressing their opinions and beliefs. In this era of professional speech writers (Adlai Stevenson is reputed to be the only Presidential nominee who still writes his own speeches), these debates are probably the only time we hear the candidates expressing themselves in their own words. We feel that this is a good thing; however, let us look at the other side. How much does the personal appearance of the candidate influence the voting public. Is Mr. Kennedy's coiffeur, or Mr. Nixon's smile, being counted on to gain X number of votes by their respective Madison Ave. depth psychologists. This we think is what the American people must guard against, that is, that they must vote for the man who has the ability to be President and not for the man who has the better T.V. presence. They must not elect their President for the same reasons that they buy their detergents. The latter statement may seem a bit extreme, but from what we have seen of presidential campaigns there is not much dissimilarity between them and the introduction of a 1961 automobile.

LETTER-POLITENESS

Oct. 23, 1960

Dear Sir:

One of the main topics of conversation on the campus is the criticism of the daily menus. Perhaps these don't fulfill our expectations, I won't say, but I would like to compliment the dining staff on several aspects which I find most pleasing. First, I think the attendants who check our meal tickets should be commended on their pleasant manners, engaging smiles, and soothing tones of voice. The flowers present in the entrance of the cafeteria are an added attraction to the clean, uncluttered, convenient arrangement of the kitchen. The serving staff have always shown a cheerful willingness to accommodate one's desires, and their thoughtfulness in remembering whether one prefers his tea or coffee with or without milk, for example, is amazing.

These are points which should be considered when one criticizes eating in the dining room.

Yours truly,

(Miss) Eunice Arthur Hitchcock

Folk Singing Club

The first meeting of the Folk Singing Club will be held on Monday, October 31st. Informality is the keynote. Come, relax, sing. Time and place will be posted in the Audio-Visual notice board.

Music Appreciation Club

First meeting was held on Wednesday. Mitch Canyon introduced Tchaikovsky's 1812 overture and excerpts from Swan Lake. Alan Mills may come out next year for a recital. Alan Saunders (CFOX) and Hamilton Grant (CJAD) have been invited to give talks.

Students' Council Letter

Mr. David Phillips,
Editor in Chief,
The Failt-Ye Times,
Macdonald College.

Dear Sir:

I understand the Annual Assembly this year will be held on Tuesday afternoon, November 1st, at 3:45 p.m., in the Assembly Hall, and that all lectures and laboratories are cancelled from 3:30 p.m. on, so all students will be able to attend.

At this Assembly, public recognition is given to students who have distinguished themselves academically, and who have fulfilled the other requirements specified for particular awards. Several Medals, Scholarships, Bursaries, and Prizes will be presented.

Dr. James, Principal, and Vice-Chancellor of the University, will deliver an address.

The Annual Assembly has been held each year since 1935. Because of the nature of the Assembly and the opportunity to hear Dr. James deliver an address, I encourage all students of Macdonald College to support this event with their interest and attendance on Tuesday afternoon.

Yours very truly,
Dale ELLS, President,
Students' Council.

Assembly Letter

The Editor, Failt Ye Times
Dear Sir:

Everyone is fully aware that it is not summer any more, but fall, and with it has come some rather chilly weather. But is there any reason why the students should have to bear the cold inside the buildings as well as out?

I am referring to the state of the Assembly Hall during the past month. It is ridiculous that the students who use the Hall twice, sometimes three times a day should have to sit there shivering, or bundle themselves up in coats.

Anyone who has sat for an agonizing fifty minutes trying to keep the circulation going in their hands long enough to take notes knows I am not exaggerating. There is even the occasional strong draft of cold air which makes pages flutter — believe it or not!

Let us hope that we will not have to wait until the temperature falls any lower before we get some action and some heat!

Yours truly,
Marion EDMONDS.

Mutiny off the Bounty?

The last square rigged ship to be built in the world is a replica of Captain Bligh's famous Bounty.

The wooden ship was built at Lunenburg, Nova Scotia this summer; it took just over six months and cost \$500,000.

The Bounty is scheduled for the Pacific where she is to be used in a remake of the film "Mutiny on the Bounty," starring Marlon Brando. Unfortunately the authorities will not allow the Bounty to leave her present berth until a First Mate can be found who holds a ticket for sailing ships. As this breed of sailor is pretty scarce in these days of steam and diesel, the Bounty may have to stay at anchor for quite some time, unless, of course, they can resurrect Mr. Christian.

J. DARROCH

Council Corner

- Meeting Oct. 25th.
- Council phone to be installed in room of Pres. Men's Res. Comm.
- Invitations for a coffee party to meet Dr. Steacie on Sat. Nov. 5th, at 1:15 P.M. in Laird Hall, may be obtained from any Council member. As there are only 100 invitations available get yours immediately if you are interested in meeting Dr. Steacie. There is no charge for this coffee party, which is open to both faculty and students.
- Friday evening, Nov. 4th Dr. Steacie will speak on Scientific Achievements, especially pertaining to Russia and the U.S.
- It was pointed out that Gold Key members are available for all organizations — get in touch with Vice-Pres. Gale Thomas for their services.
- The subject of student police at football games etc. was discussed and what this group should be paid, if anything, and what their duties would entail.
- Constitution committee work is going ahead with interviews.
- A committee under Bob Land was set up to study the whole problem of Freshmen duty.

A.E.M.

Song of the Starved

O we have a rare cafeteria
Which often is robed in hysteria,
The place as you see
Is not meant to be
The Mecca of all gourmeteria.
How ever we gather in hope
That perhaps the head D. will elope.
The dinner is fine
But the supper's a crime
For one must bring a large microscope.
So while learning to better the nation,
We are racked with the pangs of starvation.
To sharpen the mind?
Or is this an escape from inflation.

Doreen Lighthall IG

Experts...

On Campus

(by Harry Needham)

Cheers to the resident students of Brittain Hall. Heard about that petition that was handed to Mr. Puxley? We understand that it created quite a fuss around eatery circles. A rather nasty rumour that we heard was to the effect that the dining hall is given a dollar a day for each resident student for food. Sure tastes like it. A certain Home Ec friend of ours called our attention to the fact that there exists in the library a U. S. Army cookbook with all kinds of goodies in it. One item noticed was Boston Coffee. (5 gal). The item went on to state that the troops possibly might not like it. Dining Room Staff, we implore you, try it on us! It's better than most of the stuff that we've been getting. And about all those little gadgets that our friends have been acquiring, at our expense. It's quite an adventure getting milk; will it be skim, cream, or no milk at all? All three have happened. And who needs an automatic coffee vendor? Oh, well, children must play.

Speaking of automation, those machines at the coffee shop don't seem to be living up to the reputation that they acquired. A number of people that we talked to gave notice of their disgust at having to put up with the abominable flavours that they have. Lime Cola, indeed! Oh, for the days when you could get Hires or Peers Orange. Now we must get used to the ghastly ideas offered by those infernal machines. Ugh, ugh, ugh.

Our hats are off to the football team. That was one of the best games that we've seen in a long, long time. We certainly didn't lose it through lack of effort and even though we didn't win, congrats to all. That was a real game. It brings to mind a little saying that it familiar to just about every coach;

"For when that one great scorer comes to write against your name;

He writes not that you won or lost,

But how you played the game."

The word from the STS is that they have yet another constitution. This one seems to be the best of the lot. In addition to the executive, there will be a council composed of one person per class, who will in turn represent that people selected by the advisory groups, thus eliminating the problem of having thirty people or more at each executive meeting. With the new system, the exec and higher reps will meet and then the reps will tell the ad gp reps, who will in turn advise the smaller groups. Apparently, the STS is going to be more of a professional society this year. This is certainly a welcome change and one that was sorely needed. They've got all sorts of little schemes planned up so it should be an interesting year.

At last we found out who will be going out to do battle over atomics with Dr. Dion. A tentative name has been released. Dr. Yaffe, Macdonald Professor of Physics at McGill has been approached and we understand that his views are so strong on the subject that he would be glad to air them, provided that he can find time. Needless to say, he is diametrically opposed to the Dean. Another item is that singer Bob Hill will be out here some Monday AM. in the near future and that folksinger Alan Mills will give a concert some time this year for all students (and probably for a price).

Another thing that we are glad to see revived is the Music Appreciation Club. It is organized by the students and with the guiding hand of Dr. Hanson who will be giving a number of talks on various types of music. We hear from the president that the club will feature almost any kind of music available and will meet several times a week. Man, are we getting culture.

Girls Should not Pay their Way

It seems to me that the only place where you'll get support on your article is in Brittain Hall.

Why is the coffee shop different from any other place? Aren't they still the same delectable females you took out in the city? Did they lose any of their femininity on the way out to the college? It's an insult to a girl to make her feel as if she's lost something since she's arrived here.

What gave you the idea that girls receive the same allowances as boys? The average boy gets a quota of at least 50-100% more than the average girl. Where else can you take in a movie for 75c. in the evening? Any Montreal boy can tell you a movie in town will cost \$1.25 EACH plus taxi fare to and from. Be thankful that the town is so small that taxis aren't necessary and that their aren't any nightclubs with a cover charge of \$2.50 chaque personne. By the way, what did you say the cover charge was at Joe's?

Both sexes have expences, true, but do you buy lipstick, powder, mascara, and rouge to look your best when you go out? Do you get up at seven in the morning in order to have extra time to make-up? By the looks of it some of the boys get up at 8.25 a.m.

And where do you draw the line? Face the facts boys. When women start paying their own way, they'll also start wearing suits and ties.

F. Davis. Class III Dip.

Message to Non - Commuters

Once upon a time there was a bus. Not just an ordinary bus, but one that went from Montreal to Mac, everyday, faithfully, in rain, sleet, snow, and all the other things that faithful buses go through. Now you may ask, what's so great about this bus? Go ahead, ask. I shall attempt to explain.

Never before has there been a vehicle with the exciting features of this one; removeable steering wheel (usually while bus is in motion), permanently closed windows, luxurious cardboard seats and the most spectacular of all, a persistent "conk-out" motor, that breaks down every hour on the hour. Another feature worth nothing is the back wall. Now, on common, run-of-the-mill buses, this wall is bolted tight. But, not on the commuter bus! That one comes off at the slightest knock, even while passengers are in the back seat. This is most enjoyable, because the people in the back seat never know when they will be dumped on the highway and always wait with extreme anxiety.

However, before closing, you must do one thing. When you leave the main building, any day, at four-thirty, look for a yellow and white bus. Look around slowly, and then run, don't walk, to the nearest train, and thank your lucky stars that you don't have to take the commuter bus.

Suzan HELLER.

FRIENDS! FRIENDS!

The Freshmen have many things to learn at Mac, but we all need to know how to make and keep our friends. Since college life socially centers around this factor, considerable attention should be given to it. Once a friendly atmosphere among all students on the campus is established, there is greater interest and participation in the various activities.

Regardless of what we do after completing our courses at college, we all want of look upon the people we get to know as true "friends". These relations to a large extent, will determine the kind of people we are later when we start to work in our chosen field.

To refresh our memories, here are a few steps to follow in order to make and keep our friends:

1. Show a certain amount of consideration for each other.
2. Be loyal — this quality is essential for lasting friendship.
3. Be a dependable friend. There is nothing more satisfying to your friends than to know that they have, at least one, sympathetic and understanding person in whom they can confide.
4. An argumentative approach is ruinous to friendship. Winning an argument never wins friends. Just ask yourself a simple question: doesn't it seem silly to lose a friend just to prove a point?
5. Try to be agreeable. In things that don't matter too much, it is easy to go along with another's desires.

Remember, that sharp words, which come to the tongue so easily, can cause only anger or hurt.

With these easy steps as a guide, let us all try to be more friendly to everyone we meet. All we have to do to have friends is for each of us to be a friend. Now, a final word of advice: in the warmth of friendship, a person's disguises melt away from him, and he shows himself to us just as he is — a characteristic we all should strive to achieve.

Shirley McGENTY.

DEBATING

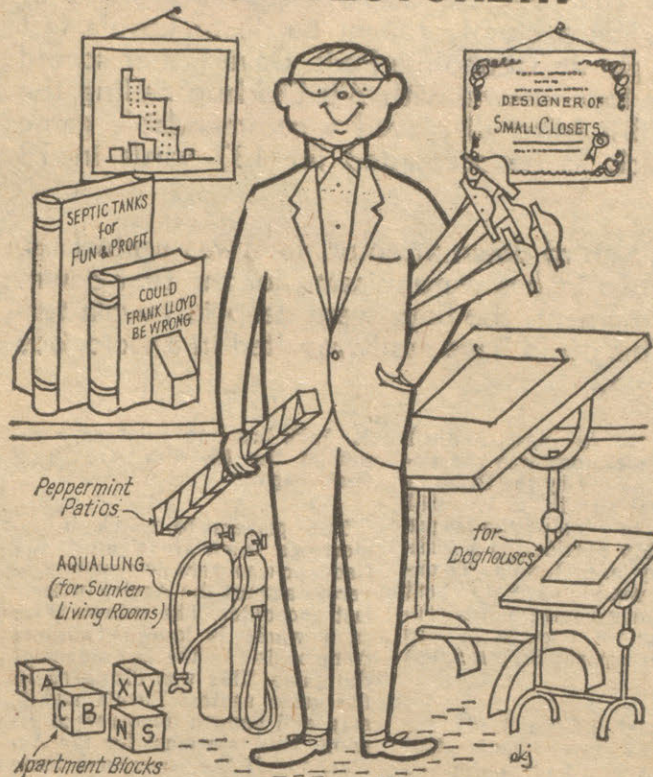

The Debating Club started with a bang last Tuesday evening when the affirmative side of the debating topic, "MAC STUDENTS ARE INTELLECTUALLY STERILE," won by a majority vote. Those representing the affirmative panel were Mr. Rupert James, Miss Claire Purdy and Mr. Carlton Davis, while on the negative side, the panel consisted of Mr. P. Luomala, Misses Eva Terauds and Ivy Jennings. It was a lively meeting and the majority of the audience agreed that Mac Students are indeed intellectually sterile. Prof. C. Meir, who was also present, gave a peppy talk with comments on "How to Debate."

Previous to the debate, elections were held and the following were elected to represent the Debating Club.

M. Salim Khan President
Pentti Luomala Vice-Pres.
Claire Purdy Secretary
Carlton Davis Treasurer & Assistant Sec.

MEDICAL EXAMINATIONS and CHEST X-RAYS will take place in the INFIRMARY from October 28th to November 18th inclusive. Any student who has not made an appointment or wishing to change an appointment because of an important lecture, a field trip or practice teaching, please contact the Infirmary as soon as possible.

ON THE SPOT

BRIAN PURDON

SPORTS NEWS

The Mac Aggies, displaying a fine brand of football, lost a closely fought battle to Loyola last Friday night at Trenholme Park. Dave Fisher scored both our touchdowns with Bill Diachun calling the signals. Bill Mitchell played a commendable game at fullback as he accounted for 137 yards in 18 carries.

On a third down attempt, fate was against us. A mere two inches were missing for the first down. At that moment, the boys were deep in Loyola territory. This could have easily resulted in a victorious touchdown.

A surprise to most football fans on the campus was the upset victory posted by the Bishop's Gaitors over St. Pat's. We still have hopes of winning the league championship considering a Bishop's victory over Loyola. Therefore, we would have to beat Loyola on our homegrounds providing that we manage to win both games against St. Pat's and Bishop's.

At present Loyola leads the league with three consecutive wins, our Aggies have a win and a tie, Bishop's has one win, and

St. Pat's has one point as a result of the tie with Mac three weeks ago.

Two players to watch in tomorrow's game are Venturi and Gaudaur who were extremely dangerous against the Aggies in their last encounter. The Ottawa team as a whole is known to come from behind in the last stages of the game. This was displayed in the game against Loyola and it may well happen tomorrow afternoon. This is a must for the Aggies, and if they overcome their first half nervousness, as they probably will, they may well take the game by at least three touchdowns.

TRACK

Last Saturday our track team travelled to St. John's to compete in the OSLIAA Track and Field Championships. Our team did remarkably well in the track events but showed up rather poorly in the field events.

Dave Greenstein was the individual star, winning both the 100 and 220 yard dashes. Another great competitor was Dale Munckittrick with a first in the 880 and a second in the 440. Other point-getters were Doran Armstrong and Charlie Barnes. The Mac relay team placed second in a most thrilling mile race.

Although it was a very cold and windy day, the meet proved to be successful. C.M.R. won the competition with a total of 61 points and Mac placed fourth with 28.

BRIAN PURDON.

SOCCER

The Mac soccer team, playing against a rough C.M.R. squad, lost a close game by a score of 2-1. Our boys played well as a team but a few key-players were injured early in the game. This, therefore, made it quite impossible for the collegians to post a victory. Our lone goal-getter was Del Trott.

As they have not yet won in league competition, it is expected that they will win tomorrow when they play host to Loyola. The match is scheduled for 12:30. Let's support our team by turning out and cheering the boys on to victory.

BRIAN PURDON.

Sports Shorts

It has been announced that Mr. Jim Widdop, of the Institute of Education, will be swimming coach for this year and track and field coach for next year.

A program of swim meets is now being organized and pre-season workouts have begun.

The track team would like to thank Sandy Spence for his coaching. He gave the boys many worth while tips on starts and in conditioning.

A reminder for all you skating and hockey enthusiasts. The ice should be ready around November 1st.

The wrestling club, under the leadership of Julius Greff, will be holding sessions every Thursday night with the McGill coach, Alan Turnbull.

The tennis match between Loyola and Mac, which was to have been played last week-end, was re-scheduled for tomorrow afternoon. Place: Macdonald courts. Time: 2:30.

Junior Edition
November 4th

SPOTLIGHTING Women's Sports

by MARY SPADA

Soccer

Bishop's will come to Mac to play our gals on Saturday 29th at 12:30 P.M. Best of luck Mac.

Badminton

The Badminton Club began its sessions earlier in September and has practices twice each week: Thursday 8:00 to 9:30 p.m. and Sunday 2:00 to 5:00 p.m. Membership fee is \$.50 for the whole session and everyone is welcome! Come out and join the fun!

Basketball Intercollegiate

Come on girls! If you have played basketball before, come to the WOMEN'S gym on Tuesday, Nov. 1st for Junior and Senior team Try-Outs. All those interested should be there by 6:30 P.M. If you are interested but cannot make it Tuesday evening, contact Liz Day or Dawn Graham in Laird Hall.

On Saturday, Oct. 22, the women's team travelled to Lennoxville where they defeated the Bishop's team (girls of course) 6-1. Congratulations to the Mac gals for another victory! The Mac goals were scored by Irma Montgomery, Joan Neil and Linda Darling.

Do come and support the return game on Saturday, Oct. 29, at 12:30 p.m.

Swimming

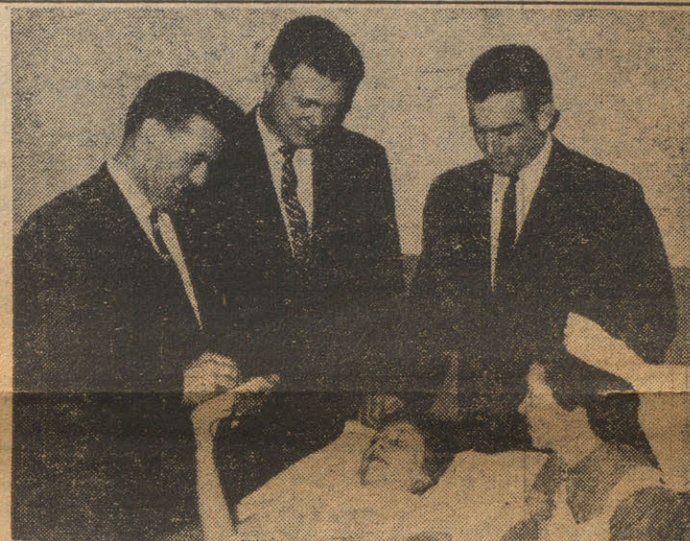

The girls' swimming marathon began Monday 24th, and continues until Friday 28th. The idea is for each class to win a certain number of lengths each day. The winning class gets points towards the Judy Brugar Trophy.

Tennis

The tennis match that had been scheduled for Tuesday Oct. 25th, was cancelled.

Golf

The last Monday and Wednesday classes have been scheduled for Oct. 31 and Nov. 2 respectively.

PEOPLE YOU KNOW ARE BLOOD DONORS... — Maurice Richard, Red O'Quinn and Sam Etchevery know the importance of blood transfusions and give their full support to the Red Cross who must collect 3,000 pints each week to supply the 115 hospitals affiliated to its free Blood Transfusion service in the Province of Quebec. Giving blood does not hurt and causes no ill-after effect.

MEET YOUR TEAM

DAVE FISHER — Halfback
Ht. 5'11" Wt. 185 lbs. 22 yrs.

In his second year both at Mac and on the team, Dave holds down one of the important half-back positions. Having remarkable speed he can either plunge through the line or run around the ends. A Granby boy, he played one season with the Granby Thunderbirds.

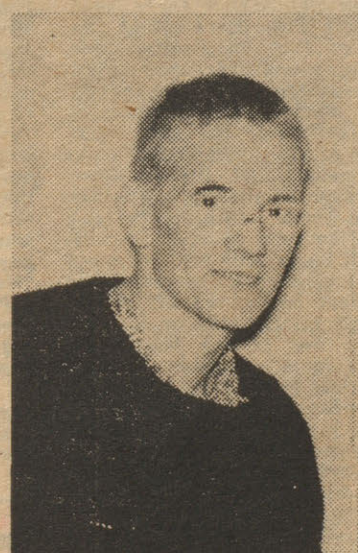

ERLAND PEPPER — Left end
Ht. 5'11" Wt. 170 lbs. 22 yrs.

A second year Phys. Ed. student, Pep is noted for having one of the best pair of hands on the team. He played end for Simcoe High School as he presently does on the Aggie team. The Diachun-Pepper combination is a wonderful asset to this year's edition of the Aggies.

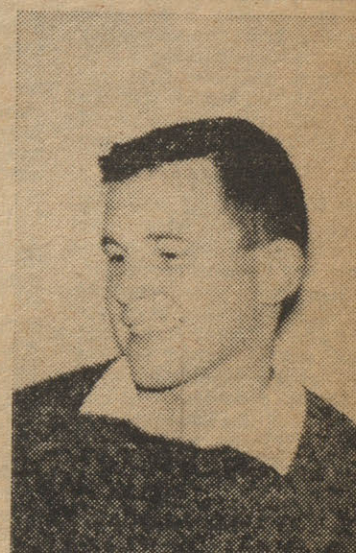

BRIAN O'CONNOR — Full back
Ht. 5'11" Wt. 195 lbs. 20 yrs.

Okie comes to us from Ottawa where he played four years at Glebe Collegiate Institute. He has participated in a Red Feather game in Toronto where his team was victorious. Playing fullback, he is also noted for his kicking abilities. O'Connor is one of the many newcomers that have added much strength to this year's team.

LARRY ELDRIDGE — Def. end
Ht. 6'0" Wt. 170 lbs. 21 yrs.

This is Larry's first year at Mac. He has had previous experience with the Brome-Missisquoi team in the Quebec Intermediate League. A native of Knowlton, Larry is noted for his smart, hard tackling defensive play.

DAVE POPKIN — Linebacker
Ht. 5'9" Wt. 170 lbs. 20 yrs.

After playing four years for Mac High, Dave is beginning his second season with the Aggies as he was on the team two years back. Filling the dangerous inside linebacker position, Dave is a handy man to have around when the opposition starts running plays through the line.
